

OPERATING ROOM
Skin adhesive

derma+flex

Value Life

derma+flex

The **strength** of Butyl & the **flexibility** of Octyl

High viscosity skin adhesive

Blend Octyl and Butyl Cyanoacrylate

Features	Benefits
Easy to Use	One layer / fast set time
Flexible	No cracking
Waterproof	Shower allowed 1h after application
No-sting	No activator / no exothermic reaction
High Viscosity	It stays where you want without running
Microbial Barrier	Avoid bacterial penetration
0,7ml tube	One is enough for the suture
Room Temperature Storage	Simple storage procedure

derma+flex is ideally suited for areas of skin exposed to flexing and moisture, including between fingers and toes, fingertips, chins, eyebrows, elbows and knees, which are difficult to seal with traditional bandages.

derma+flex fine applicator
Allows fine applications where looks (cosmetic issues) are considered

derma+flex foam applicator
Allows a flow controlled application to the surface, that provides a flexible waterproof bandage

Product	Code
derma+flex 0,7g	VCHLB60406V
